About me contact

I'm a 23 year old guy trying to find a sweet spot between designing interfaces and developing code. I currently live and await Swedish invasion in Łódź, Poland.

Between switching from TextMate to Adobe Crash Reporter, I try to blog and design Mac & iPhone apps. I'm not only building websites and apps, I use and enjoy them daily.

Stalk me on: Twitter, Flickr or just check out some good music. To see sneak peeks of my current work, check out my Dribbble page.

anna say hi or talk about ancient vimanas? If you dig such things, course, otherwise we can discuss TechCrunch's latest post. Just dding. Go away.

, I mean, go ahead. :)

an mark up your design to look handsomely in modern browsers (and if you ask nicely). You know, CSS and HTML stuff. Due to amount of ork I can't make a design for you. Contact me.

urrently work as a freelancer and accept markup projects.

ay not get back to you if you mention SEO, IE5 or monetization too many times.
